

Frequently Asked Questions

Overview on FATCA

1. What is FATCA?

FATCA stands for Foreign Account Tax Compliance Act (FATCA). It is a legislation to help counter tax evasion in the United States of America.

FATCA creates a new information reporting and withholding regime for payments made to certain foreign financial institutions and other foreign entities. The FATCA requirements came into effect on 1 July 2014.

2. What is the intent of FATCA?

FATCA is intended to increase transparency for the United States (U.S.) Internal Revenue Service (IRS) with respect to U.S. persons that may be investing and earning income through non-U.S. institutions. While the primary goal of FATCA is to gain information about U.S. persons, FATCA imposes tax withholding where the applicable documentation and reporting requirements are not met.

3. Who is impacted by FATCA?

Any individual who is classified as a U.S. person or has U.S. links will be affected by FATCA. Any entity making a payment of U.S. source income must consider whether it is subject to FATCA. FATCA may apply to both financial and non-financial operating companies. Due to this extent, FATCA impacts virtually all non-U.S. entities, directly or indirectly, receiving most types of U.S. source income, including gross proceeds from the sale or disposition of U.S. properties which can produce interest or dividends.

U.S. entities, both financial and non-financial, that make payments of most types of U.S. source income to non-U.S. persons will also be impacted as they may now be required to withhold a 30% tax on that income paid to a non-U.S. person under FATCA. This will require U.S. entities to maintain documentation on such non U.S. persons and also track how they are classified under FATCA.

4. How do I know if I am affected?

Maybank Group has committed to be FATCA compliant in all countries that we operate. In this regard, whenever you visit any of our Branches or Business touch points for products or facilities, we may request for further information and/or documentation about your FATCA status.

As part of being FATCA compliant, we will also be reviewing our pre-existing customer base to confirm our customers' FATCA status. Where necessary, we may have to contact our customers for further information and documentation.

FATCA legislation will affect both Individual and Business customers who are treated as "U.S. Person" for tax purposes. 2
